# The global TNE challenge

# TNE Quality Benchmark (TNE QB) – *a global solution to a global challenge*

An international independent peer-review scheme aimed at improving the international understanding of and confidence in TNE qualifications of demonstrated quality

# It achieves this by demonstrating the quality of TNE based on 4 international pillars...

○  
**International Scope:** Any TNE operation, regardless of location of origin or delivery

○  
**International Standards:** framework aligned with accepted international reference points

○  
**International peer-review:** International review teams and Advisory Board

○  
**International cooperation:** with sending and receiving locations, and regional/international networks

# A call to the INQAAHE community

Let's work together to unleash the progressive potential of more flexible, although less traditional, ways of learning...

...to be enablers of more inclusive, sustainable and relevant paths to learning
