WORKSHOP 1 on
Data Management for Quality Assurance

César Guadalupe; Universidad del Pacífico (Peru)

Anna Prades Nebot; Agència per a la Qualitat del Sistema Universitari de Catalunya

o Introductions
- Facilitators
- Participants (name, institution, why are you attending this workshop?)

o General considerations
- Information and decision-making: differentiating levels.
- Potential issues

o Group discussion

General considerations

o International data on HE

o Data reporting and institutional dynamics at different levels:
- Institution (internal/external)
- Sector (HE)
- System level

o Data: technicalities and beyond

Group discussion

Considering your experience and your institution's status:

o QA data availability? Sources (external, internal, system-level?)

o Are QA data used in a substantive manner (faculty development, curriculum development, etc.)?

Institutional maturity

o HEI: Higher education institution

o QA: Quality agency
